

Waitākere Ranges

- Fewer children aged 0-4 enrolled in ECE centres than other Western local boards, likely because it has the fewest estimated children in that age range.
- Has the lowest proportion of 18 year-olds with NCEA Level 2 of any Auckland local board.
- 44% average increase in residential values (between 2014 to 2017), the lowest of the Western local boards.

Henderson-Massey

- Has the highest estimated number of 0-4 year-olds of any Auckland local board, and the most 0-4 year-olds enrolled in ECE centres.
- The lowest proportion of school leavers with little or no formal attainment of the Western local boards.
- Has the most households (393) on the social housing register of any Auckland local board.

WESTERN LOCAL BOARDS

- No students learning Te Reo Māori more than 50% of the time, no bilingual or immersion ECE centres, no Kōhanga reo ECE centres, and 99% of Māori students receive little or no Te Reo.
- The proportion of school leavers with little or no formal attainment increased between 2011 and 2016.

Rodney

- These Local Board snapshots are meant to be used in conjunction with the Auckland 2017 snapshot as a source of accessible, quality information to inform decision-making on education and skills.
 - Updated data since the Auckland 2017 snapshot:
 - ECE staff numbers by qualification
 - Additional data not present in the Auckland 2017 snapshot:
 - Iwi affiliation
 - Number of bilingual and immersion ECE services by language use
 - Increase in residential value by Local Board
 - Auckland mean rent between 2011 and 2018
 - Housing needs by Local Board
- Data on the inside pages are visually represented on a path that flows from left to right – representing an individual’s learning pathway beginning with Early Learning → Skills and Work.
- Caveats:
 - Suppressed data: Local Board data is suppressed when the likelihood that individuals could be identified or the potential for error is high (e.g. < 5 students in an ethnic category, survey sample size less than 1000 individuals)

If you are a(n)...

Educator

You can use these snapshots to identify strengths and weaknesses in achievement areas, view past progress, and learn about educational pathways. For example, Waitākere Ranges has the most school leavers with little or no attainment of any Auckland local board.

Employer (including educational institutions)

You can use these snapshots to be more informed about current skill and youth NEET (Not in Employment, Education or Training) numbers. For example, Waitākere Ranges and Rodney both have Education Degree L7+ in demand, indicating there may be a need for teachers in these areas.

Iwi Member

You can use these snapshots to evaluate students’ opportunities to learn Te Reo and access to Kōhanga reo ECE services. For example, Ngā Hotahota o Te Whaitau (those who do not know / specify an iwi) and Te Hiku were the two iwi most people were affiliated with for all the Western local boards.

Local Board Member

You can use these snapshots to guide your decision-making using information about demographic changes, trends in education, and skills within your area. For example, Henderson-Massey has the most people on the social housing register in Auckland (393 households, 308 of whom are at immediate risk).

Student or Family Member

You can use these snapshots to learn about education facilities (e.g. ECE centres) and housing availability. For example, the Western Local Boards have a total of 17 bilingual and immersion ECE services, though none of them are in Rodney.
